

Engineering and Environmental Consultants, Inc. (EEC) is seeking an experienced **Environmental Technician** for our Environmental Department in Phoenix, Arizona.

The successful candidate will have experience and knowledge in Phase I/II ESAs, LUST, SAF, RCRA, NEPA, NESHAP, APP and AZPDES/NPDES. Job responsibilities include performing small to large due diligence projects, conduct field investigation, research and compile data, analyze environmental data, write environmental reports, and interface with client and regulatory agencies, assist with labor/material estimates, support project managers with permitting and regulatory compliance. The candidate must be able to manage multiple task assignments while working within strict budgets and schedules. Some in-state travel may be required as needed dependent on project assigned.

**Education/Experience Requirements:** Qualified candidate will have a minimum 2 year Associates degree in Environmental Science or closely related science field and 2-5 years of professional experience. Candidate must function as an effective team member and be able to work independently and demonstrate personal initiative. Must be proficient in Microsoft Office products, have excellent technical writing skills (attention to detail) and experience in spreadsheet preparation. The successful candidate will have current 40-Hour OSHA Hazwoper training with current 8-Hour refresher training and the ability to demonstrate strong written and oral communication skills. Other certifications in asbestos and lead-based paint are also desired.

**Physical and Other Requirements:** Must be able to operate office equipment, occasionally lift and/or move up to 25 pounds. The candidate must be available for site visits and field operations. **Must possess a current valid driver's license and have a clean driving record.**
